

Manage pop-ups

Google Chrome prevents pop-ups from automatically appearing and cluttering your screen. Whenever the browser blocks pop-ups for a site, the  icon appears in the address bar. Click the icon to see the pop-ups that have been blocked or to manage pop-up settings for the site.

If you're having trouble blocking pop-ups, saving your homepage, startup page, or search engine, then you may have malware. [Get help restoring your settings.](#)

See pop-ups for a specific site

To see blocked pop-ups for a site, follow the steps listed below:

1. If pop-ups have been blocked, you'll see the  icon in the address bar. Click the icon to see a list of the blocked pop-ups.
2. Click the link for the pop-up window that you'd like to see.
3. To always see pop-ups for the site, select "Always show pop-ups from [site]." The site will be added to the exceptions list, which you can manage in the Content Settings dialog.

To manually allow pop-ups from a site, follow the steps below:

1. Click the Chrome menu  on the browser toolbar.
2. Select **Settings**.
3. Click **Show advanced settings**.
4. in the "Privacy" section, click the **Content settings** button.
5. In the "Pop-ups" section, click [Manage exceptions](#).

Allow all pop-ups

You can allow all pop-ups by disabling the pop-up blocker. Follow these steps:

1. Click the Chrome menu  on the browser toolbar.
2. Select **Settings**.
3. Click **Show advanced settings**.
4. in the "Privacy" section, click the **Content settings** button.
5. In the "Pop-ups" section, select "Allow all sites to show pop-ups." Customize permissions

for specific websites by clicking [Manage exceptions](#).

Using a Chrome device at work or school? Your network administrator might configure the pop-up blocker for you, in which case you can't change this setting yourself. [Learn about using a managed Chrome device](#)
